Holiday Gift Guide

If you're reading this, you're probably a fiber lover or you love a fiber lover. If that's true, you know there's nothing we want more than more weaving, weaving tools, and items that increase weaving fun, productivity, and satisfaction.

So we here at *WEFT* have scoured the weaving universe and collected, in this little guide, some of our favorite brand-new and tried-and-true weaving and fiber-adjacent products. You'll also find a "if your giftee is a ... then they might like..." list. We even asked *WEFT* staffers to share what they hope to hold in their hot little hands.

We hope this guide helps you find the perfect holiday (or anytime) gift for the weaver in your life. If you are the weaver in your life, make some meaningful notes and pass the guide on to friends and family who might be wondering what would make your eyes light up and your smile widen.

We know the holidays can be stressful and the array of weaving-related things on the market can be overwhelming (especially for those who don't directly love weaving but rather love a weaver). We hope this guide and these lists make the holidays a little easier and a lot more warp- and weft-filled!

Meet Zephira Yarn

by Revolution Fibers

A color-rich weaving yarn with smooth performance and a versatile palette for scarves, towels, garments and so much more.

We created Zephira to keep a beloved making experience alive:
a wool and silk 2/18 lace cone blend inspired by Jagger Spun's coveted Zephyr yarn.
Our Zephira is next-to-skin soft, shows that treasured quiet glow, and finishes cleanly, making it a gift any weaver will cherish.

Expand your weaving possibilities

with the Fiber Artist Supply Co. Inkle Loom

A removable top peg lets you switch from traditional inkle weaving to tablet weaving in seconds, while the compact design makes it easy to take to classes, guild meetings, or wherever inspiration strikes. Crafted from durable Maple ApplePly with sturdy 3/4" maple dowels, this versatile loom offers an impressive 78" warp length and excellent tension control—perfect for weaving strong, beautiful bands with confidence.

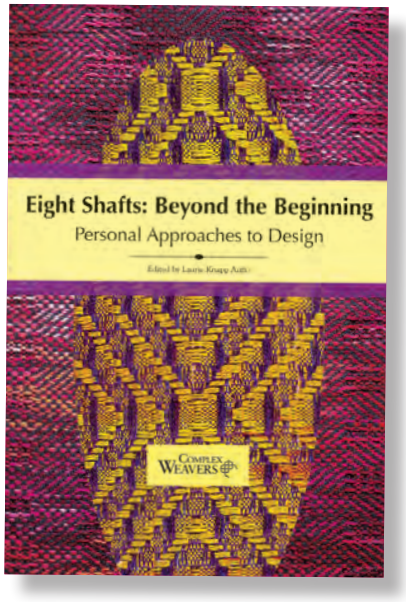
COMPLEX WEAVERS

Eight Shafts and Beyond

This is more than just a pretty design book. In its 280 pages, 72 weavers share their creative processes for designs on eight shafts and beyond. They describe how to move a design from idea to woven piece, and how they use structure and color to amplify a design. Along the way they offer precise, useful tips you can really use. Organized in groups of design elements, written for weavers, by weavers, this book gives wings to your own weaving explorations.



Complex Weavers

The Best First Loom

(And a pretty great second or third loom, too)

Whether you're just learning to weave, teaching someone else, or enriching your own practice, there's no little loom that works for you like BoomLoom does.

Our award-winning rotating heddle bar makes weaving easy and accessible for beginners and those with vision or dexterity challenges. Build complex patterns intuitively, row by row – instant, interchangeable patternmaking means even experts reach for it again and again.

Experiment, play, make the most of a few spare moments – BoomLoom puts creative superpowers at your fingertips. See it in action and read our rave reviews at theboomloom.com!

Boom Loom
theboomloom.com

Tabletop Tapestry Loom

The Ashford Tabletop Tapestry Loom is designed for precision and flexibility, perfect for both new and experienced tapestry weavers.

Adjustable high-tension top beam, warp spacer and shedding system. Top and bottom rollers allow long warps and extended tapestries for bigger designs. Choose 16” or 24” weaving widths. Folds flat for transport or storage.
